## WALTER BRAMLEY DIES OF INJURIES

Hurt in the Black Diamond Mine on February 28th

News of the death of Walter Bramley, who has been in a critical condition in the Holy Cross hospital, Calgary, for some time, reached Carbon on Friday morning, saying that he had died about 3 a.m.

The late Walter Bramley, who was a farmer living just south west of Carbon, had been working in the Black Diamond mine during the winter and the day he was to leave the mine and go back to the land, he was injured in the back by a falling rock and taken to the hospital on Feb. 29th, where, on Friday last, he died of his injuries.

The deceased, who was 38 years of age, was born in West Hallam, England, and came direct from there to Carbon, where he took up farming. He was married in 1913, and besides his widow he leaves to mourn his loss, six children and one brother, at Carbon, a brother, William, in Edmonton, and his mother and a brother and sister in England.

The body of the deceased was brought to Carbon on Monday and on Tuesday at 1 p.m. funeral services were held in the Masonic hall and the large crowd present testified to the high esteem the late Walter Bramley was held by the people of Carbon and district.

The pall bearers were: Messrs. W. Downe, W. Poole, S. Mortimer, N. Cunningham, H. Best and A. Prowse. Rev. W. Attwood officiated.

Interment was made in the Carbon cemetery.

## LITTLE ITEMS OF LOCAL INTEREST

—There will be a dance in the Gamble school on Friday evening, June 29th.

The Drumheller Golf Tournament has been postponed till July 23rd and 24th.

Percy Edwards was a Calgary visitor last week and returned with a new Nash Sedan.

Messrs. W. Herbert and R. Mackay returned on Monday from an auto trip to the Peace River district, but were not impressed with the possibilities there.

This is the month of June. The poet's month and the month of weddings. Let us print your wedding stationery. Prices reasonable and satisfaction guaranteed.—The Chronicle, Carbon.

Mrs. W. Bramley gave birth to a baby girl on June 24th.

—C. H. Bothamley, jeweler, will be at Peters Store every Thursday with an up-to-date stock of Diamonds, Watches, Jewelry, etc. First class repair work done while here. Leave repairs at Peters store. If

The dance in the Farmers Exchange hall on Thursday night was somewhat hampered by the rain that day and Mrs. Trainor's Orchestra, which was to arrive from Calgary, was not able to make the

## GRAIN 26 INCHES HIGH ON S. MORTIMER'S FARM

A sample of spring wheat was left in the Chronicle Office on Monday and the growth was measured to be a little over 26 inches. This fine sample of grain was grown on S. Mortimer's farm south west of town and is just a sample of what the spring wheat is doing in the Carbon district this year.

trip through to Carbon. The dance went ahead just the same with an orchestra that was soon gathered together and everyone present was quite satisfied with the evening's entertainment.

An agreement was reached between the C.P.R. and the Municipal district of Carbon, in the matter of a crossing over the railway in this district. The railway company agreed to build a bridge and pay for it, the Municipality to maintain it after that date.

Members from the Rockyford and Irricana Golf Clubs will be here on Sunday to compete for the district championship in the Her-Play Offs.

## ALL SET FOR THE ELKS FREE PICNIC

Elsewhere in this issue you will see an announcement of the Elks Free Picnic, which will be held on Monday afternoon, July 2nd, in the Carbon Park. Those in charge have been doing all in their power to make this picnic a great success and everything has been arranged for a full afternoon's sport for both young and old. Games such as races and ball games have been arranged and an added attraction will be a ball game between the Carbon Juniors and the Drumheller Juniors.

All parents attending are asked to bring a lunch basket full of refreshments, and turn them into the Committee, where they will be taken care of till the lunch hour. The parents are asked to bring their own cups, spoons, etc. so that there will be no shortage at lunch time. Plates will be provided.

The Elks have decided to give each child five Tickets, or the equivalent to 25c worth of free treats.

In the evening a big dance will be held in the Farmers Exchange hall and nothing is being left un-

## Signs Of A Better Era

The period of prosperity now so generally prevalent throughout Canada and the United States, and the marked rise in industrial activity in all lines all over this continent, and which is being felt to a steadily increasing extent in Great Britain and other European countries, seems to present to some ill-informed minds and agitators an opportunity to once again revive the old "strike" weapon. When times are hard, business depressed, with large numbers of men unemployed and anxiously seeking work, the agitator urging men rejoicing in employment to "strike" has a hard row to hoe, but when business is brisk, the vast majority of men employed, and an increasing demand for labor, the agitator sees his opportunity to make trouble.

Fortunately, both employers and employees have learned from past bitter experiences that industrial warfare does not pay, any more than does war between nations; that the victor suffers almost as great damage as does the vanquished; and the general public which after all is the greatest sufferer is now more and more inclined to sternly oppose the calling of a "strike."

Relations between the bosses on the one side and the men on the other have been bettered and become more cordial in recent years through a realization of a truth, which ought to have been recognized long ago, that, in the final analysis, their interests are common. Employers today do not regard their men as mere machines, but as real and active partners in the success of the business in which they are jointly engaged, and the average workman today recognizes that his employer has huge problems and difficulties to face in successfully administering and maintaining his business in a highly organized and fiercely competitive world field.

Recently an attempt was made to induce all the employees of the Toronto Street Railway system to go out on strike to enforce a series of demands made by them. To tie up the street railway system in a city like Toronto would be a public calamity, resulting in great inconvenience to everybody and an enormous loss to the entire community. The Toronto street railway is municipally owned,—that is, it belongs to all the people. The management pointed out that to meet the men's demands would necessitate an increase in fares. This brought the issue right home to every resident, and particularly to all classes of workmen in the city who are among the principal users of the cars. Had the system been privately owned, people would probably have felt that any increased expense to meet the men's demands could be met out of profits, and that any increase in fares was unnecessary, but in a municipally-owned system, operated to provide service rather than to accumulate profits, the statement of the management was accepted not as a bluff, and that either increased fares, or operating deficits to be made up out of increased taxes, must result.

So, when the matter of calling a "strike" finally came to a vote of the street railway employees, the men themselves rejected it by a ten to one vote in favor of arbitration, a very healthy indication of sane thinking on the part of the men and of the present trend of public sentiment.

Another Toronto labor incident may be cited as indicating the newer and more reasonable point of view now actuating labor men. Structural steel workers on three of the largest buildings in the city went on strike to compel their employers to establish a closed shop and employ only union men, which would be a reversal of the Company's policy during the last forty years of making no distinction between union and non-union men but treating them all frankly and alike. The steel workers have sought to induce other branches of the building trades to go on strike in sympathy with them, but without success, and even the International Union, it is understood, refuses to endorse the attitude of the strikers.

The fact is becoming increasingly evident that in this age the bludgeon methods of war are growing more and more in disfavor, no matter in what direction or cause they may be employed. People are becoming more insistent all the time that causes of dispute, whether between nations, or in the industrial arena, or between individuals, be settled through the orderly processes of law and arbitration, and not by flying at each other's throats and engaging in combat in which countless thousands of absolutely innocent persons are made to suffer.

### More Deadly Than Disease

Motor Cars Kill Thousands Of Children In New York

Nearly 2,000 children under 15 years of age have been killed by mo-

### HE DIDN'T THINK DYSENTERY COULD BE RELIEVED

Mr. John Melling, Fenner, Alta., writes:—"I am a returned soldier, and when I came home from overseas I suffered greatly with dysentery. The doctor said it was chronic and did not think it could be relieved. However, he doctored me for quite a while, but did me no good. One day the druggist asked me if I had ever tried

"On his recommendation I bought a bottle and after I had taken it got some relief, so I got two more, and have never had the dysentery since 1925."

W. N. U. 1739

tor cars on the streets of New York during the last five years, according to figures made public by the health department. Three times as many boys as girls were victims.

Health Commissioner Harris said that in this city deaths caused by automobiles are more numerous than those due to diphtheria, scarlet fever, and typhoid combined.

### Announces New Discovery

Artificial Teeth Can Be Made Without Plate, Says Toronto Dentist

Dr. F. W. Barbour, Toronto dentist, announced a remarkable discovery in which false teeth are made to stay in place by means of suction called "marginal retention," for use on either the upper or lower jaw. By this the vulcanite plate formerly covering the palate of those who had artificial upper teeth and which used to interfere with diction, and the sense of taste, will be done away with, relieving considerable discomfort to the wearer.

First Surgeon—"Are you going to operate on this patient?"

Second Surgeon—"I'm afraid to; there's something the matter with him."

An enemy knocks a man down, then a friend proceeds to kick him.

### Obtains Second Place

Blind Student At Brantford Successful In Essay Contest

Obtaining second place among 20,000 contestants all over the Dominion in a recent essay contest, a blind boy student at Ontario School for the Blind, Brantford, will receive congratulations of the acting minister of education, Hon. W. H. Price, conveyed by Dr. A. H. U. Colquhoun, deputy minister, to Supt. Race. Ernest Philpott, writing upon the subject, "Laura Secord, the Woman Who Made Confederation Possible," attained the highest place but one in this large field, and, in addition, three other pupils of the school received special prizes.

## GREAT HELP TO YOUNG MOTHERS

Baby's Own Tablets Have Many Uses and Are Absolutely Harmless

To have in the house a simple, harmless remedy for the minor ills of babies and little children is a great boon to young mothers, and this is exactly why Baby's Own Tablets have been found in thousands of households. The Tablets regulate the stomach and bowels, break up colic and simple fevers, allay the irritation of cutting teeth, yet they have no drug taste and the children like them.

Concerning the Tablets Mrs. Ruthven Crommiller, Ruthven, Ont., writes:—"Kindly send me your little book on the Care of the Baby. I have two children, one four years of age and the other a year and a half. Both are in excellent health and the only medicine they have had is Baby's Own Tablets. I always keep the Tablets in the house and am happy to recommend them to other mothers."

Baby's Own Tablets are sold by all medicine dealers or by mail at 25 cts. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Golf Week At Jasper Park

Events At Jasper Park Lodge Golf Course, Jasper, Alta., September 8th to 15th Inclusive

Saturday, Sept. 8th (Morning) — Handicap match against par, eighteen holes. Players allowed three-quarters of medal handicap. Entrants may arrange their pairs. (Afternoon)—Ladies' handicap — Match against par.

Monday, Sept. 10th (Morning) — Inter-Province and State competition. Teams of six players from provinces or states. Total of medal round of all contestants for 18 holes to be counted. Individual prizes to winning team members. (Afternoon)—Mixed foursome matches against Bogey, 50 per cent. of combined handicaps.

Tuesday, Sept. 11th (Morning) — Jasper Park Lodge Silver Totem Pole Trophy. Qualifying round eighteen holes. Gold medal for best qualifying score. Silver Totem Pole Trophy to winner of first sixteen. Suitable trophies to winner for second and other sixteens. (Afternoon)—Ladies' qualifying round.

Wednesday, Sept. 12th (Morning) — Jasper Totem Pole Trophy. First round, eighteen holes; all flights. (Afternoon)—Ladies' first round; all flights.

Thursday, Sept. 13th (Morning) — Jasper Totem Pole Trophy. Second round, eighteen holes; all flights. (Afternoon)—Mixed foursomes — Medal round.

Friday, Sept. 14th (Morning) — Jasper Totem Pole Trophy. Semifinals; all flights. Men and ladies. (Afternoon)—Mixed foursomes — Match against C.D.G.U. par 4 of combined handicap.

Saturday, Sept. 15th (Morning) — Jasper Totem Pole Trophy. Finals; all flights. (Afternoon)—Ladies' putting competition. 5 p.m.—Prize giving.

The winner of the first 16 in the Totem Pole Trophy competition will receive a reduced facsimile of the trophy, which will be his permanent possession. The trophy itself, upon the giving of bond, may be held for a year by the club from which the winner enters.

Grapes grown in Holland and Belgium can be sent by water to London at a much lower cost than similar fruit grown in the south of England can travel by rail.

Wise and experienced mothers know when their children are troubled with worms and lose no time in applying Miller's Worm Powders, a most effective vermifuge. It is absolute in clearing the system of worms and restoring those healthy conditions without which there can be no comfort for the child, or hope of robust growth. It is a most trustworthy worm exterminator.

A street car goes much faster when you are running to catch it than after you have caught it.

For Rheumatism use Minard's Liniment.

## Care For Your Hair With Cuticura Soap

And Cuticura Ointment. Before shampooing anoint the scalp with Cuticura Ointment, letting it remain on over night when possible. Then shampoo with a suds of Cuticura Soap and warm water. Rinse thoroughly. A clean, healthy scalp means good hair.

Sample Each Free by Mail. Address Canadian Depot: "Fuchsman, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c. Cuticura Shaving Stick 25c.

### Alberta's Coal Resources

Official Figures Place Total At Over a Billion Tons

An estimate of Alberta's coal resources, made recently by the International Geological congress, places the total at 1,035,629 million tons, according to figures received by the provincial government. This is 14 per cent. of the world's coal supply, 72 per cent. of the British Empire's resources, and 87 per cent. of Canada's resources.

The mines presently operating in Alberta are capable of producing 15,000,000 tons annually, and it has been estimated that if this production were increased 100 times, that the available supply would not be exhausted for 18 centuries.

Wretched From Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dissipates the cloud by removing the cause. It does relieve. It does restore the sufferer to normal bodily trim and mental happiness.

The physical and mechanical properties of Sitka spruce and its availability in long straight-grained pieces have made it the most valuable timber for aeroplane construction.

### Honored Earl Of Asquith

Southern Mountain Peak and Western Town Named After Him

The name of the late Earl of Oxford and Asquith is likely to live not only in history, but in geography, for two places on the map were named in his honor during his long term of office as Prime Minister.

The first such honor was paid Mr. Asquith by Sir Ernest Shackleton, who named a newly-discovered peak in the vicinity of the South Pole, Mount Asquith. The second was the bestowal of his name on Asquith Town, in Saskatchewan.

Soft corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

### A Land Of Farm Owners

Western Canada is a land of farm owners, according to census revelations. In Manitoba more than 51 per cent. of occupied farms are inhabited by their owners; in Saskatchewan over 77 per cent. and in Alberta over 75 per cent.

For Hay Fever—use Minard's.

The number of persons employed in road construction in Canada in 1926 reached a total of 26,071, and was greater than in any of the past seven years.

## Nail GYPROC right over Old Walls

### GYPROC Advantages for Farm Buildings

Easy to use.  
Low cost.  
Workable as lumber.  
Cannot warp, bulge,  
crack, shrink or burn.  
Takes any decoration.

Resists heat and cold.  
Vermine proof.  
Eliminates repairs.

Ideal for lining garages, poultry houses, barns, grain bins, and other farm buildings.

Especially suitable for converting attics and basements into extra rooms.

How many rooms in your home have walls that are cracked and faded? Make them "good as new" by nailing Gyproc right over the old, unsightly wallpaper. When you've decorated with Alabastine your home will be as attractive and comfortable as any home can be.

Use Gyproc for partitioning off extra rooms, renovating attics and basements, and making grain bins, stables and other farm buildings fire-safe and vermin-proof. You can put it up yourself—easily, quickly and at a substantial saving.

Gyproc Joint Filler applied at all the joints insures a perfectly smooth, flat surface that will take any decoration.

# HERCULES

PERMANENT BUILDING PAPER

## IT TAKES A SHARP BLADE

Healthy beards can be removed most easily with a sharp blade. So, too, can Hercules Permanent Building Paper be cut. It doesn't tear easily.

For this reason alone, carpenters and builders prefer Hercules. When using, handle it as roughly as you like. Hercules will not tear or crack. Hercules allows greater speed in using.

For various purposes, Hercules is made in three grades—x light, xx medium, xxx heavy. All grades are tested and proven wind proof and damp proof. A sample gladly sent on request.

Appleford Paper Products

HAMILTON, CANADA

## WORLD HAPPENINGS BRIEFLY TOLD

By an order-in-council the Saskatchewan Gasoline Act, 1928, has been amended to exempt all railway companies operating in Saskatchewan from payment of the tax.

Negotiations for trade treaties with several foreign countries including Newfoundland, will be entered by the Canadian Government during the present year.

Dr. Otto Hamman, long a figure in German political life and chief of the press bureau of the foreign office from 1894 to 1915, is dead at the age of 76.

The equal franchise bill, giving women the vote at the age of 21 under the same terms as men, passed its third reading in the House of Lords, without discussion.

More beets, more parsnips, more oats, more flax and more wheat are produced annually at the Saskatchewan prison in Prince Albert than in any other penitentiary in Canada.

At Philadelphia the seaplane PN-12, carrying a useful load of 2,000 kilograms (approximately 4,400 pounds) broke the world's altitude record by ascending more than 12,000 feet.

A new five-cent air mail postage rate, to be effective August first, is announced by Postmaster-General New, of the United States. A five-cent air mail stamp has been authorized.

Dr. Fridtjof Nansen, famous Arctic explorer told the International Congress of Aerial Arctic exploration that in 1929 he intends to make an extended polar flight in a dirigible airship. He said this ship was now being constructed in Germany.

### Modern Miracles

On Victoria Day, Premier Mackenzie King gave a broadcasted message from Ottawa to a 100,000 crowd assembled in Hyde Park, London, England, and a little later High Commissioner Larkin telephoned from the British metropolis to exchange greetings with reference to the incident. Either event would have been regarded as a miracle not so very long ago, yet the two combined scarcely caused a ripple of public attention, so used have we become to modern marvels.

The trouble about worshipping ancestors is that people who do it seldom provide the same privilege for posterity.

## Athletes.

For sprained ligaments, bound muscles, kicks and bruises—use Minard's.

W. N. U. 1739

## Red Cross Editorial Contest

Congratulations Are Extended To the Winners in Both Daily and Weekly Sections

Congratulations are now being widely offered all over Canada to those who have won prizes in the recent editorial contest inaugurated by the Canadian Red Cross Society, for the best editorials published in the daily and weekly press of the Dominion, to celebrate the centenary of Henri Dunant and the founding of Red Cross for the world.

Prizes have been awarded to: Robert Henderson, of the St. Thomas Times-Journal, St. Thomas, Ontario, for the best editorial published in any daily paper, while Miss May Stuart Clendenan, of the Farmers' Advocate, London, Ontario, took the leading place in the weekly paper section in English. The other bright and clever people who won honors and prizes were: Second for dailies, H. B. Christie, The Expositor, Brantford, Ontario. Third, Miss Kenneth M. Haig, Manitoba Free Press, Winnipeg, Manitoba. It is worthy of note that Miss Clendenan is the present president of the Canadian

Women's Press Club, while Miss Haig is a past president.

Prizes for the weekly papers in English: second, C. J. Allbon, The Asquith Record, Asquith, Saskatchewan; Third, C. W. Peterson, The Farm and Ranch Review, Calgary, Alberta.

For the French section, prizes were awarded respectively to Adolphe Savard, La Patrie, Montreal, P.Q.; J. M. Estival, La Soliel, Quebec, P.Q.; and to Charles Gautier, Le Droit, Ottawa, Ontario.

The judges for the English section formed into an adjudicating committee headed by Dr. James W. Robertson, chairman of the Central Council of the Canadian Red Cross Society were: Dr. Lorne Pierce, Editor, the Ryerson Press, Toronto; J. F. B. Livesay, general manager, Canadian Press, Toronto; J. M. Elson, Canadian Author's Association, Toronto; Professor G. M. Wrong, History Dept., University of Toronto.

For the French section the adjudicators were: Mr. Leon Lorraine, of the Commercial High Studies School, Montreal; Mr. Robert Choquette, professor of the University of Montreal, and Dr. Victor Morin, past president of the Canadian Authors' Association.

The contest was entered by sixty-one papers, but dozens more contributed editorials without actually entering the contest. Several million readers were thereby informed that it was Henri Dunant who actually originated the idea of Red Cross for the world, whereas, formerly, only a vague idea that Florence Nightingale had done so, existed in many people's minds. Florence Nightingale, however, was publicly acknowledged by Dunant in a speech in London in 1872, as having been his inspiration.

## Indians Make Big Profits

Found Seal-Fishing Good Along West Coast Of Vancouver

Fur seals have been unusually plentiful this season along the west coast of Vancouver Island, and the Indian, to whom pelagic sealing is permitted if guns are not used, have brought in a large number of skins for sale. The price is high and some of the hunters have been making big profits.

The weather was stormy at times, and the Indians, in the frail dugout canoes, had no easy time during the hunt, but are well pleased as the salmon fishing has not been any too good owing to the rough seas.

## BRITISH TRADE AND FOREIGN COMPETITION

Sir Charles Sykes, former coalition Liberal member of the British House of Commons, is concerned over foreign competition and its effects on British trades. "Drastic remedies are required" he said on arrival in Canada a few days ago on the White Star liner "Regina," "if Great Britain is to be restored to that position in the world which she formerly held.

## Farmers' Marketing Tour

Canadian National Railways' Tour To Great Britain and Denmark, 1928

(Continued.)

The next morning saw us out even earlier. At 8.30 we were viewing the Snow Hill Police Station adjoining Smithfield Market, the finest police station in Great Britain, yet, notwithstanding its modernity, spaciousness and hygienic advantages and the interesting pictures of lovely ladies which we found in the policemen's recreation room, none of us really wished to stay.

From this last word in police stations we went to the smoke houses and provision establishment of Messrs. George Bowles, Nicholls & Co., Ltd., where we were shown sides of bacon from twelve countries, including Canada. Mr. George J. Nicholls, Managing Director, compared the various qualities. Canadian bacon, he said, was placed fourth in public favor. First English, then Irish, next Danish, and then Canadian. Comparison was also made with butter, cheese and eggs. Two Chinese eggs six years old were broken and shown to be perfectly "fresh" so far as edibility was concerned. Both had large yolks and were examples of what eggs should be. A good deal was learned from Mr. Nicholls regarding the requirements of the British market and whose remarks brought forth many questions from the party.

We were now taken in hand by the Central Markets Committee of the Corporation of the City of London, who showed us Smithfield Meat Market and Spitalfields Fruit and Vegetable Market including the extensions which are being made to the latter at a cost of \$10,000,000. We had scarcely time to reflect upon the history of this seven-hundred-years-old market-place, the largest meat market in the world, except to recall here, that Wat Tyler was slain by Sir William Walworth in the presence of King Richard II, and that it had been the scene of the burning of Protestant martyrs, for soon we were travelling through aisles of meat which never seemed to end. There were 5,000 tons upon the hooks. All this meat had come into the market that morning and would be out of it by three that afternoon! Such is the meat-consuming power of Greater London. One of the secrets of the expeditious handling of meat is the Great Western Railway's depot which lies immediately below the market, obviating the carting of meat through the streets. Access from the depot to the market is by two hydraulic lifts from each of which 100 to 150 sides of beef can be cleared every hour. Every facility was afforded for asking questions of anybody in the markets, both meat and fruit and vegetable, and a mass of information was obtained having a direct bearing on the marketing of Canadian products.

After three hours of tireless investigation we were ready for the Mansion House and the reception of the Lord Mayor and Lady Mayoress, Sir Charles and Lady Batho. In this imposing house, where since the 18th century, the Lord Mayors of London have received kings, princes, statesmen and other representatives from all lands, we were given a cordial welcome and made to feel at home. During a pleasant and privileged half hour we were shown the old kitchens with the spits on which used to be roasted barons of beef, entertained in the great Egyptian Hall, and accorded a view of the City's gold plate.

Leaving the Mansion House with some regret at the shortness of the stay, we made the brief walk to the Guildhall as guests of the Central Markets Committee.

We entered the Guildhall with a feeling akin to reverence. If London is the heart of the Empire, the Guildhall is the heart of London. It has been the centre of stirring episodes throughout many centuries and the pillars of the Great Hall which were licked by flames to a height of thirty feet, still bear the marks of the Great Fire of London. Here the great images Gog and Magog are still on guard, and in this room on July 29th, 1915, Sir Robert Borden was accorded the Freedom of the City of London, and tribute was paid to the gallant and tenacious defence of the Canadian Force in the Second Battle of Ypres.

Our luncheon table was set in the famous Art Gallery, a colorful surrounding of rare historic and rich artistic interest. It was fitting that Alderman W. P. Neil should preside at a luncheon to Canadian farmers for he was foremost in the efforts which secured the abolition of the embargo on Canadian cattle. With us was the High Commissioner, Mr. Larkin. The principal toast was "The Great Dominion of Canada," in reply to which a striking tribute to the opportunities which Canada presents was given by the Hon. George Langley, who revealed that as an English workman he had passed and re-passed the Guildhall daily for eight years or more, but never in his wildest dreams had he thought he would one day dine there! It is difficult to convey the cordiality, the spirit of kinship which marked the speeches on this occasion when London accorded us her highest honor in this ancient hall, or the pride with which the Cor-

poration's most treasured possession was brought from the vaults for our inspection. This was the scepter which for over 1,000 years has been symbol of the City's dignity and is carried before the newly crowned monarch at every coronation. With this we were shown a purse that was the gift of Queen Elizabeth. The dated souvenir match container ornamented with the City's coat of arms given to us after the luncheon will be treasured by every member of the party, no less than the memory of the great day on which Canadian farmers were guests of the Empire's Capital.

Entertainment gave place in the afternoon to a session with representatives of the Provision and Grain Trades of London, under the auspices of the London Chamber of Commerce. Here we listened to plain talk on both sides which brought forth information of the greatest value. An eventful day concluded with an evening at Drury Lane, the largest and most famous of London's theatres, where we saw "The Desert Song," one of the most successful musical shows ever presented in London.

(To Be Continued.)

## SUNDAY SCHOOL LESSON

JULY 1

### THE EARLY LIFE OF SAUL

Golden Text: "Remember also thy Creator in the days of thy youth."—Ecclesiastes 12:1.

Lesson: Deuteronomy 6:4-9; Philippians 3:4-6; Acts. 22: 3, 27, 28.

Devotional Reading:—Psalm 119: 33-40.

### Explanations and Comments

The Religious Training Of a Jewish Boy, Deuteronomy 6:4-9. Jehovah is the one absolute God; He must be loved with all the heart, soul and strength. The commandments must be laid to heart, must be taught to children, must be constant subject of thought and conversation everywhere and at all times—at home, and when on the way, in the evening on lying down, and in the morning on rising. They must be bound upon the hand for a sign, and worn as bands (frontlets) between the eyes. This "sign" was worn upon the arm in much the same way as children tie knots in their handkerchiefs, or change rings on their fingers, to remind the wearer of something he should not forget.

"Lord God of hosts, be with us yet, Lest we forget—lest we forget!"—Kipling.

This was the teaching of Deuteronomy, and we may be sure that this was the instruction which Paul received while a lad in his father's house at Tarsus.

"Oh, if our children all were brought Betimes to God and duly taught His law to honor and obey, Pre-eminently blest were they; And bound as with a sevenfold cord Would be our nation to the Lord."

## How Much Water Should Baby Get? A Famous Authority's Rule

By Ruth Brittain

Baby specialists agree nowadays, that during the first six months, babies must have three ounces of fluid per pound of body weight daily. An eight pound baby, for instance, needs twenty-four ounces of fluid. Later on the rule is two ounces of fluid per pound of body weight. The amount of fluid absorbed by a breast fed baby is best determined by weighing him before and after feeding for the whole day; and it is easily calculated for the bottle fed one. Then make up any deficiency with water.

Giving baby sufficient water often relieves his feverish, crying, upset and restless spells. If it doesn't, give him a few drops of Fletcher's Castoria. For these and other ills of babies and children such as colic, cholera, diarrhea, gas on stomach and bowels, constipation, sour stomach, loss of sleep, underweight, etc., leading physicians say there's nothing so effective. It is purely vegetable—the recipe is on the wrapper—and millions of mothers have depended on it in over thirty years of ever increasing use. It regulates baby's bowels, makes him sleep and eat right, enables him to get full nourishment from his food, so he increases in weight as he should. With each package you get a book on Motherhood worth its weight in gold.

Just a word of caution. Look for the signature of Chas. H. Fletcher on the package so you'll be sure to get the genuine. The forty cent. bottles contain thirty-five doses.

## EFFORTS MADE TO PUSH WORK ON H. B. ROAD

Ottawa.—Work continues to be pushed on the Hudson Bay Railway, with considerable grading in progress. Whether the road will be finished by the end of 1929, as anticipated, cannot yet be said, but all efforts are being made during the season to finish those parts that can be worked on.

The northward course of the road occurs at Mileage 356 (from The Pas), a few miles northeast of Kettle Rapids. From there the railway will run almost due north to Fort Churchill, avoiding contact with Fort Nelson altogether. Churchill is at Mileage 512, which would indicate that 156 miles of steel still remain to be laid.

With regard to the Fort Churchill itself, officials of the department of railways recall that when Hon. Mr. Dunning was asked as to his policy respecting real estate speculation there, he declared that the government had expropriated all lands on the east side of the harbor, where the dock works will be constructed. Compensation for this will be decided in the exchequer court in due time.

Most of the land for the townsite of Churchill was the property of a settler named Beach, who established himself there and homesteaded many years ago. He is now dead, but his heirs are scattered throughout Canada and they will be recompensed for the expropriations.

The loss of the dredge off the Labrador coast last year may delay the harbor works for some time. Throughout the winter a great deal of material was salvaged at Port Nelson and forwarded to Fort Churchill by motor-tractor; other material has been floated up the bay.

An aeroplane base will be established within a few weeks as soon as the ice conditions in the immediate vicinity of Fort Churchill have become such as to enable the department of national defence planes now at Cormorant Lake, north of The Pas, to make the trip to the port.

### Caught In Snowstorm

#### Colorado Tourists Marooned At Summit Of Pike's Peak

Colorado Springs, Colo.—Twenty-five tourists have been rescued from the summit of Pike's Peak after being marooned there for 24 hours by the worst spring snowstorm to visit this region in several years.

Several children were in the group, which had been isolated by great heaps of snow which covered the upper regions of the 14,000-foot mountain. Word of their plight was brought here when telegraph communications were restored and a snow plow fought through the drifts and reached the stranded tourists.

#### "Hints" With Cruisers

Warsaw.—The Government has ordered three light cruisers to anchor in the mouth of the Vistula as a gesture to Danzig that Poland will brook no interference with her development of merchant marine. This action followed recent difficulties with Danzig Port and Customs authorities, who refused to allow several Polish freighters docking or anchoring facilities at Danzig piers. Danzigers protest that the ships are a menace, and constitute a danger to the safety of the city.

#### Attending Authors' Convention

Toronto.—A contingent of Toronto members of the Authors' Association will attend the annual convention in Calgary which opens July 4, including Dr. Charles G. D. Roberts, the National president E. M. Hardy, the National secretary and J. M. Elson, treasurer.

#### Trade Treaty Signed

Vienna, Austria.—A treaty of amity and trade between the United States and Austria has been signed by Chancellor Seipel and United States Ambassador Albert Henry Washburn.

Oil burning vessels are blamed for wholesale slaughter of fish.

W. N. U. 1739

## Privy Council Ruling Important To Dominions

### Judgment Rendered In Regard To Writ Of Habeas Corpus

London.—A judgment of grave constitutional importance to His Majesty's subjects in Britain and the overseas Dominions has been rendered by the judicial committee of the Privy Council on an appeal from Nigeria.

In effect, Their Lordships decided that although by the Judicature Act, various courts have been combined into one high court, each judge of that court still has jurisdiction to entertain an application for writ of habeas corpus either in term time or vacation, and he is bound to hear and determine such application on its merits, notwithstanding any previous judicial findings.

This principle must apply to the Supreme Court of Nigeria, they said in allowing the appeal of Eshugbayi Eleko, native chief, from a decision of the Nigerian Supreme Court which had found that Mr. Justice Tew, of Nigeria, had no jurisdiction to entertain Eshugbayi's motion for a writ of habeas corpus.

### Must Make Restitution

#### Chicago Mayor and Three Others Owe \$1,732,279 To City Treasury

Chicago, Ills.—Mayor William Hale Thompson, Michael J. Flaherty, George F. Harding and Percival B. Coffin, public administrator and three real estate experts, were found in circuit court to have conspired together in hiring the real estate men to do special work under the last Thompson administration at a cost to the city of \$1,732,279. Judge Fugo Friend ordered the defendants to make restitution of that sum to the city treasury.

The court, terminating the two two year old suit, found the conspiracy had a two-fold purpose, "financing the political activities of the Thompson administration, and for the private benefit of the members of the conspiracy."

### Had Narrow Escape

#### Window Cleaner Clings To Sill On Third Story Until Rescued

Winnipeg.—Clinging desperately with his fingers to a window sill on the third storey of the Grain Exchange building here, Steve Habuza miraculously saved himself from death. He was cleaning windows and was adjusting his safety belt when the heavy steel sash fell, knocking him off the space. As he plunged downward he caught the sill just before the sash crashed down on his fingers, crushing them badly. He held on with all his strength until his plight was discovered and he was rescued.

### Tribute For Pilot

#### Credit For Latest Atlantic Flight Given To Stultz

London.—Talking to London's assembled newspaper men recently, Miss Earhart declared firmly and emphatically that during her brief stay in England she did not want to be the subject of "hero worship."

"I have done nothing to merit it," she said. "It is because I am a woman that I have been forced into the spotlight. The credit for the success of the flight is due to Stultz. He controlled the plane practically throughout and was just splendid."

#### New Settlers Coming

London.—The families of 30 soldiers will be settled in Canada next spring under the new scheme of land settlement for military and naval families, it has been announced. The age of the head of the family will not exceed 40 years except in particular circumstances where the family is regarded as very desirable, in which case the age limit will be raised to 45 years.

#### Will Make World Tour

Minneapolis.—James W. Davidson, author, explorer and diplomat, a resident of Calgary, Alta., has accepted appointment as special representative of International Rotary for a tour around the world to visit clubs already organized in some countries and survey other countries not yet in Rotary.

## B.C. PROVINCIAL ELECTIONS

Hon. John D. MacLean, of British Columbia, who will lead the Liberal party in a test of strength in July, when a general election will be held. Premier MacLean who is a native of Prince Edward Island, succeeded to the chieftainship of the provincial Liberal party on the death of the Hon. John Oliver last year.

## Scottish Youths For Canada

### Inspector Comes To Dominion To Study Conditions Here

Toronto.—James M. Maltman is relief inspector of the Glasgow, Scotland, parish council. Interest in migration problems affecting the old country has brought him to Canada for the purpose of studying conditions as they have to do with youths who come out under the land settlement act.

"There are 8,000 people in our parish receiving relief," he said. "We quite appreciate that migration to Canada is not a solution to our problem, but we do feel that many Scotch lads, after they are hand-picked, tested and trained in farm work, may make good settlers for Canada."

"We are most particular as to what type of boy we train and never accept those who have been in a reformatory or are of doubtful character." He brought out with him 30 youths who are already placed on farms in the Dominion.

## Storm Takes Heavy Toll

### Tornadoes Cause Death and Destruction In Southwestern States

Kansas City, Mo.—Three more deaths and millions of dollars of property damage were added to the toll taken by storms in the Southwest.

Tornadoes again visited communities in Oklahoma, and high winds, floods and hail scattered destruction in sections of Kansas and Missouri. The three deaths reported recently, brought the total dead to 12 and more than a score of names were added to the long list of injured.

The Red Cross reported 2,200 persons homeless, many of them destitute.

#### Memorial To Coal Miner

Lethbridge, Alta.—Plans are progressing rapidly for the unveiling here, July 18, of the memorial cairn in honor of Nick Sheran, Alberta's first coal producer, who in 1872 opened out the first mine on the banks of Belly River.

## WILL GIVE CANADA HELPING HAND

Photograph shows a happy group of young women who arrived in this country recently for domestic work, positions having been assured them before leaving the Old Country.

They arrived in Montreal after a pleasant voyage on the Canadian Pacific Steamship "Melita" with the ship's conductress, who is seen in the centre of the group, and who advised them that it were better to work for a salary and be independent than just to work at keeping house.

## Tragedy In Belgrade

### Two Members Of Serbian Parliament Are Killed By Radical Deputy

Belgrade, Jugo-Slavia.—Infuriated by frequent interruption and the refusal of the opposition to withdraw insulting words, Punica Ratchitch, Radical deputy, drew a revolver during a session of the national assembly and fired all six rounds into the group of opposition members.

Paul Raditch, nephew of Stefan Raditch, the peasant leader, was killed; Stefan Raditch himself seriously wounded. The Croat deputy, Dr. Basaritchek, was so gravely wounded that he died on his way to the hospital.

Dr. Pernar and two other deputies, Grandja and Jelashich, also received bullet wounds of a dangerous nature.

This was the culmination of fierce controversies and hand-to-hand fights which have recently taken place in the Jugo-Slav parliament. The crime is considered the most terrible since the memorable assassination of King Alexander and Queen Draga, just 25 years ago this month. It has thrown the whole of Jugo-Slavia into a ferment of excitement.

Parliament had scarcely opened this morning when the opposition, led by Stefan Raditch, began its obstructionist tactics against the government's legislation in the forefront of which is ratification of the Nettune convention with Italy.

At the height of the angry debate Stefan Raditch, turning to the government benches and shaking his finger, shouted: "You are not men; you are swine!"

## Lynching Is Condemned

### Population Of Texas City Is Stirred Over Outrage

Houston, Texas.—Stirred by the first lynching here in 50 years, municipal, county and state officials joined in an intensive search for eight unmasked white men who took Robert Powell, 24-year-old negro slayer, from a hospital cot and hanged him from a bridge.

The fact that the lynching took place while the national political spotlight is turned on the city caused officials particular concern and quick steps were taken in an effort to fix responsibility.

An appropriation of \$10,000 was voted by the city council for an investigation by a committee of six, two members of which are negroes.

## Says Navy Best Defence

### Preserves Unity Of Empire Declares President Of League

Saint John, N.B.—Treaties and pacts could never take the place of the "sure shield"—the navy—declared President Sam Harris, Toronto, before the annual meeting of the Navy League here. The unity of the Empire, he said, depended on the naval defence. He asserted Canada should pay a fair share towards protection of its overseas trade.

The session was taken up with a presentation of the financial statement of the organization, which showed the League with highly satisfactory resources. Endowment fund securities amounted to \$455,000. Surplus in the general fund, December 31, 1927, was \$19,721.53, it was reported.

## NOBILE PARTY RECEIVE RELIEF AFTER LONG WAIT

King's Bay, Spitzbergen.—General Umberto Nobile and five of the crew of the lost dirigible Italia were found on an ice floe by Major Maddalena, Italian aviator. He dropped them guns, ammunition, food and cigarettes, while the castaways danced joyfully about their desolate encampment. Maddalena was unable to make a landing.

This first relief for the Italian explorers came twenty-six days after their dirigible, returning from a flight over the North Pole and weighted with ice, suddenly descended, smashed the gondola in which Nobile and eight of his crew were riding, and carried the remainder in the unmanageable balloon northward before a gale.

The S-55, a huge seaplane, was sent from Italy by the Italian Government in the belief that its wide cruising radius would be more useful in the search than the smaller seaplanes furnished by the Swedish and Norwegian governments.

The S-55 was manned by Maddalena, Lieut. Cagna as co-pilot, with radio operator Abelli and Mechanic Sergeant Rampini, who had come with the plane on its flight from Italy.

All Europe, moved for days by the dramatic plight of Nobile in hearing and seeing relief planes overhead but being unable to give them position, tonight was anxiously waiting for word from Amundsen.

Captain H. Riiser-Larsen returned from his fourth reconnoitering trip over the ice without having seen anything of Nobile or the other two parties of the Italia's crew.

Larsen said the radius of flight of his machine was too small and suggested an icebreaker be sent to North Cape to rescue the three men of Nobile's crew who left him in an attempt to walk to the mainland.

The rescue ship Braganza is unable to advance further toward the east because of packed ice.

## May Be Lost In North

### Fear Entertained For Missing Trapper In Northern Alberta

Edmonton, Alta.—The hazards faced by the men who go into the northland in quest of furs is once again exemplified by reports from northern detachments of the Alberta Provincial Police reaching Edmonton headquarters.

A telegram received from Constable Baynes of Fort Fitzgerald, says that fears have been expressed for the safety of Walter Reamer, a trapper from the northernmost post in Alberta. The trapper is now long overdue, and a party headed by the constable are on the trail in search of the missing man.

In his lonely shack on the Athabasca river, 70 miles down river from the town of Athabasca, John Wickstrom, 70, old-time trapper, was found dead in his bed. It is thought that he peacefully passed away in his sleep.

## Planning Westward Flight

### Trip Not Yet Properly Accomplished Says Harry Lyon

Sydney, N.S.W.—Harry W. Lyon, the American navigator of the trans-Pacific plane "Southern Cross," announced that when he and his fellow countryman, James W. Warner, Ge plane's radio operator, returned to the United States, they would prepare for a flight from Ireland to America. He added that they would invite Captains Charles Kingsford-Smith and Charles Ulm, the Australian pilots, to participate in it.

Lyon contended that the westward crossing of the Atlantic had not yet been properly accomplished.

#### Wins Coveted Medal

Portland, Ore.—Sir Robert Philips, of Edinburgh, president of the British Medical Society, was awarded the Trudeau medal, most coveted prize offered to scientists fighting tuberculosis. The award was announced at the convention here of the National Tuberculosis Association.

## Tourist Traffic Helps People Of United States To Become Better Acquainted With Canada

Figures recently issued by the United States Department of Commerce indicate that American tourists to Canada last year spent four dollars for every dollar spent by Canadian visitors to the United States. The respective amounts were \$206,000,000 and \$51,000,000. From a per capita standpoint the comparison appears altogether different with Canadians spending \$3.36 in the United States for every head of the Dominion's population against \$1.73 spent in Canada for each person in the United States.

However that is aside from the point that Canada officially welcomes the tourists and desires that each and every one shall have a most pleasant and enjoyable holiday within the Dominion's borders, and that they shall go home with pleasant recollections. In this latter connection the Natural Resources Service at the end of the tourist season last year reported that its correspondence showed that the visitors were for the most part satisfied and pleased with Canadian hospitality. Allowances were willingly made for roads under repair and Canadian courtesy was fully recognized; what complaints there were related to lack of suitable accommodation except in the larger centres, and to overcharging. The Service issued a warning "Don't Overcharge the Tourists," in which it was stated that there were some very definite accusations of unfair treatment. This warning received very wide publicity, and it is not expected that there will be complaints this year. Nevertheless before the season is far advanced it is believed to be in the public interest to repeat the warning and no doubt the boards of trade, municipal officials, automobile associations and the merchants will be on the look out for offenders.

A pleasing feature of this year's correspondence is, that a great many more people in the United States are better acquainted with Canadian geography. In place of writing "Please tell us about Canada" they now want to know about the roads connecting certain cities, the accommodation and the sporting and recreational attractions. Many are interested in points of historical interest.

A great many persons who visited Canada last year will come again this season and this is highly significant of the interest in our country when they plan to afford the time for another visit in the immediately succeeding season. The following is from a letter written by a woman in Maryland, who motored in Canada last year, and asks for help in planning a trip this year.

"I had heard so much about Canada before last year, but I'd always thought of it as some far away place, and having people different from us in the States. I don't know when I've ever felt more at home than I did while in Canada, and your people are some of the finest on earth I'm sure. So hospitable, and even the police you have are courteous and willing to assist visitors and even bearing with them in their traffic errors. Maybe you don't receive many letters like this but I'm sure that some folks with whom I've talked about Canada have the same opinion that I have."

Canadians who have helped to entertain and assist our American visitors in their journeying through Canada will appreciate that kindly expression of appreciation and there are very many more like it. Canada welcomes the tourists and does want to see them come again.

### Employ Bituminous Sands

By means of actual tests in road construction it has been definitely established that the bituminous sands of northern Alberta can be successfully employed for paving purposes. As the present supply of these sands is practically unlimited, their presence and use appear to have solved the problem of permanent paving and road construction in the western provinces.

Few people impair their eyesight looking on the bright side of things.

W N U. 1739

### Lived On Strange Food

#### Rare Snail In British Museum Evidently Ate Glue

The entire force of the British Museum knocked off work recently and devoted itself to searching for one of the rarest snails in its collection, which disappeared suddenly and inexplicably after having remained sedately glued to a piece of cardboard for twenty years.

After a frantic search, the gastropod was discovered admiring the exhibits in a far distant wing of the museum. The assembled savants put their brains together on the problem, and decided that during his blameless and sedentary existence of two decades, M. Escargot had lived on the glue which held his apparently inert carcass to the cardboard on which he was mounted. The glue finished, there was nothing to keep him at home, either from an alimentary or adhesive point of view, so he went.

The wandering mollusc has been returned to his position, where he is secured this time by enough glue to keep him in food for at least another century.

### Winnipeg Newspaper Union

920

### A Smart One-Piece Dress

A style that proves a favorite for the woman who desires to look slender. The collarless V-shaped neckline is completed with a vestee crossing in diagonal line. The side tunics are simply stitched to the lower part of front along perforations. Tucks at shoulders are made on the wrong side for decorative effect, and the set-in sleeves are dart-fitted. No. 920 is in sizes 16 years, 36, 38, 40, 42, 44 and 46 inches bust. Size 36 requires 3½ yards 36-inch, or 2½ yards 54-inch material, and ½ yard 27-inch contrasting. Price 25 cents the pattern.

Home sewing brings nice clothes within the reach of all, and to follow the mode is delightful when it can be done so easily and economically by following the styles pictured in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. Every detail is explained so that the inexperienced sewer can make without difficulty an attractive dress. Price of the book 10 cents the copy.

### How To Order Patterns

Address: Winnipeg Newspaper Union, 175 McDermot Ave., Winnipeg

Pattern No. .... Size .....

Town .....

### ELEVATED TO THE PEERAGE

Sir Alfred Mond, who was elevated to the peerage in the king's birthday honors list. As he was a Conservative M.P. in the British House a by-election must be held in his riding. Among his many interests he holds the presidency of the Mond Nickel Co., in Canada. He also heads a new concern in the maritimes announced last week.

### Moscow Has Glass Houses

#### New Type Of Architecture Becoming Popular In Russia

If new school of Russian architects has its way, the Soviet Union in time will be a place where people literally live in glass houses. Already they work and do business in a number of new buildings in which glass is the predominant material, with a mere framework of steel and concrete to hold the transparent walls together.

Set among the shabby ornate houses of old Moscow, these structures in the transparent area is larger than the opaque. One wonders how these houses, which are all window and no wall, would fare in the event of excitement, such as the cities knew in 1917. A few well-aimed bricks would leave them in ruins.

The new houses are simplified to the point where they seem built with a child's toy blocks, with wide ribbons of glass all round. Straight lines everywhere, and the few curves are full circles, without any of the decorations and ellipses of the older structures. They seem to be the other extreme—perhaps deliberately so—of the clustered church architecture with their spirals and onion-shaped domes characteristic of old Russia.

### Reverted To Law

A clergyman who had given up his former position as a magistrate in order to enter the church, was conducting his first marriage service.

"Will you have this man to be thy wedded husband?" he asked the bride.

The bride answered eagerly: "I will."

"And you," he continued, addressing the bridegroom, "what have you to say in your defense?"

## NEW SETTLERS FOR SASKATCHEWAN

The enthusiasm of European settlers who have found comfortable and profitable conditions in Canada, has proved one of the best colonizing features of the Dominion. A recent example is that of Dr. Von Seeberg, noted German, who came to Canada several years ago and took up land near St. Walburg, Sask. His experience was such that on his return from a recent visit to Germany, he brought back with him twenty-seven sturdy German agriculturists of long experience. All of these were placed on land near St. Walburg, by F. J. Freer, Superintendent of Land Settlement for the Canadian National Railways. The photograph shows Dr. Von Seeberg (holding boy's hand) and some of his party on their arrival in Winnipeg.

## National Museum Of Canada Planning Extensive Research Throughout West This Season

The National Museum of Canada will, according to an announcement made by Dr. W. H. Collins, Acting Director, have several parties engaged in field work in Western Canada during the season of 1928. Collections will be made for exhibition and for study, and scientific investigations will be carried on that cannot be conducted except in the field.

H. I. Smith, who has been investigating the ancient village site, shell heaps and rock carvings of the Indians on the coast of British Columbia, will continue this work around Prince Rupert during the summer. During part of the season he will take motion pictures illustrating the manners and customs of some Indian tribes not represented in the four reels which he has already prepared for the National Museum, and which have proved so popular both in Canada and Europe.

J. C. Boileau Grant, Professor of Anatomy in the University of Manitoba, is undertaking for the National Museum a thorough examination of the Indians at Fond du Lac, at the east end of Lake Athabasca. Besides making a complete series of physical measurements of both adults and children, he will carry out some blood tests, with the co-operation of the Department of Health, to investigate the theory that the Indians separated from the rest of the human race before the two mutations that seem to have occurred in the Old World.

C. B. Osgood will spend a year on the lower Mackenzie river, in the vicinity of Fort Norman, studying the social and economic life, the religion and the traditions of the little known Hare and Mountain Indians who trade at the post. He will probably winter in the woods with the Indians, and return south in the summer of 1929.

Hugh M. Raup will make a botanical survey of parts of Wood Buffalo Park, south of Great Slave Lake. With the co-operation of the Northwest Territories and Yukon Branch, Department of the Interior, he will investigate the forage plants and range conditions in certain areas in the park.

Hamilton M. Laing will continue collecting mammals in southern British Columbia in the region near the International boundary line, beginning at Princeton, just east of the Cascade mountains divide, in continuation of the work carried on by him and C. H. Young, in 1927, just west of this point. A number of species reach their northern limit of distribution near this line, and the field work of 1927 brought in several specimens of the Oregon mole, not heretofore recorded from Canada.

and several other species which are of great rarity in this country.

This region is of particular biological interest because of the extraordinary and sharply defined variety of climatic and topographic conditions that occur from east to west, and because it differs also in these respects from the country to the north, and these differences are reflected in the fauna and flora. Birds and animals will also be collected.

C. H. Young will collect biological specimens in southern Manitoba, beginning at Treeshank, and working east near the international boundary line to Lake of the Woods. He will pay particular attention to the spread of certain species, as the Mississippi Valley pocket gopher, the Nebraska cottontail rabbit, and other forms which have been reported as extending their range into Canada from the states of North Dakota and Minnesota. He will also endeavor to obtain material for habitat groups of insects for exhibition in the museum.

C. M. Sternberg will collect fossil remains of dinosaurs and other extinct vertebrate animals from near Steveston, in the valley of Red Deer River, Alberta, and also from the Cypress hills, in the south-eastern part of Alberta. The Red Deer valley is exceedingly rich in vertebrate material, which is being slowly exhumed by erosion of the sides of the valley. It is the most productive collecting field in Canada and has already yielded much new and well-preserved material to the museums of Ottawa, Toronto, Edmonton and New York.

## Saskatchewan Is the Healthiest Province

### Has Lowest Annual Death Rate According To Statistics

Saskatchewan is the healthiest province in the Dominion, if the death rate is any criterion, says a despatch from Ottawa. Returns issued by the bureau of statistics give Saskatchewan an annual death rate per thousand population of 6.9, the rate being based on deaths last December.

Quebec has the highest death rate with 12.8; New Brunswick comes a close second with 12.3.

The rate for Western provinces, with comparisons for 1926, is given:

Province	1927	1926
Manitoba	7.6	7.8
Saskatchewan	6.9	8.0
Alberta	8.1	9.3
British Columbia	10.1	12.6
Dominion	10.7	11.3

Infantile mortality continues to take its toll, although the figures are improving. Returns for last December give an infantile mortality rate for the Dominion of 85 per thousand living births against 100 per thousand in the December previous.

Quebec, among the provinces, had the highest infantile mortality rate for last December, namely 112.4 per thousand; Ontario the lowest with 65.6. Alberta showed the biggest relative improvement. In December, 1926, the Alberta rate was 113.2; last December it was 68.8.

Unless a man possesses self-control he is little better than a slave.

The saxophone was invented by Adolph Sax, a Belgian.

"You broke the window, but because you have told the truth I shall not thrash you, but your father will have to pay for the window."

"Then I am sure to be thrashed!"—Meggendorfer Blaetter, Munich.

## "HELPED ME WONDERFULLY"

Woman Strengthened by Taking Lydia E. Pinkham's Vegetable Compound

Port Colborne, Ont.—"After having an operation, I was very miserable, weak, nervous and very near unfit to work. I saw Lydia E. Pinkham's Vegetable Compound advertised and tried it and believe it helped me wonderfully. I have no weak spells any more, the pains have left me and my nerves are much better. I feel safe in saying Lydia E. Pinkham's medicines have helped me wonderfully."—MRS. WM. H. BEECHTELLER, Box 143, Port Colborne, Ont.

### CHAPTER XXVI.—Continued.

When they were in the car, Maudie finished the conversation. "Helmi is doing well, but don't fuss her up by taking her out. They get to know too much. Now Mrs. Bell when she spoke to me said I would have to get some one to wash; Helmi wouldn't be able to do the washing, especially the hanging out of the clothes, on account of nursing her baby—she might catch cold. But Bob, she does it and washes beautifully. I just kept quiet. So we're saving two dollars a week there. Now, how's that? Am I a good wife for a poor man? I'll say I am. Those foreign girls are strong as horses. Well, she's good to the baby, anyway, but don't spoil her, for Heaven's sake. The more you do for people the more they expect—take it from me!"

To which Mr. Herriott replied: "I bet she'd like a ride, though; she's only a kid. She's younger than you are, and I think she looks pretty pale and tired sometimes."

"Look here," said his plump little wife, asserting her dignity. "Who is running the house?"

Every Fibre of Every Cord Insulated with rubber.

## Let Gum-Dipped Tires Save You Money

Only in Firestone tires can you get the advantages of the exclusive Firestone Gum-Dipping process by which every fibre of every cord is insulated with rubber which prevents internal heat and friction—the greatest enemy of tire life.

This is the reason why Firestone tires give thousands of extra miles. They cost no more than ordinary tires. See the nearest Firestone Dealer.

## GUM-DIPPED TIRES

W. N. U. 1739

And when she said it she looked so utterly sweet and plump and pink and white, so much like a spoiled but very pretty child, that her husband kissed her and forgot all about Helmi.

Helmi had a friend in the bread man, who gave her snatches of news from the outside world. The soldiers from out at the Exhibition Grounds were going away soon. They would go direct to England, to Salisbury Plains. His boy was with them—"as good a boy as ever stepped." But he would go—"a chip off the old block." He had been in South Africa in the War—was mentioned in dispatches, too—but nobody knows anything about it now. The world soon forgets. These soldiers will be forgot, too, for all the bands are playin' for them now.

Helmi was not unhappy. She had pleasure in her work and in caring for little Lili, who grew lovelier every day. The Herriott baby was a heavy jowled child who slept well and cried profoundly. "Has she taken to it yet?" the grandmother asked, each time she came.

From her room Helmi could look north to the railway tracks and see the Peace River train come in as it crossed the street, moving silently along, like a square, black, jointed snake. She found herself watching for it every Tuesday and Saturday. It was queer that Mrs. Sim had not answered her letters.

One night in April, when Mr. and Mrs. Herriott were away to a dance, Roland, their baby, grew suddenly ill—the usual symptoms, little hot hands, fevered breath and restless tossing head. Helmi was walking the floor with him when the parents came in at two o'clock in the morning.

"Lay him down and let him cry," said his mother, as she threw her cloak on the dining-room table; "it's his teeth! All kids have it; you're spoiling him."

"You'd better send for the doctor," said Helmi. "See how red he is—I am afraid of tullock— the red fever."

"Nonsense!" Maudie Herriott had just come from "The Macdonald." She had danced every dance and the exhilaration of it was still in her brain. The idea of this Finn girl saying the doctor should be brought!

Helmi was frightened. The baby's eyes were burning and rolled uncertainly, and the night was heavy with the sudden heat of spring. "Please do get a doctor, Mrs. Herriott," she pleaded; "it's bad, this sudden sickness; sometimes it brings on convulsions and babies die."

Mrs. Herriott took another look at the baby and felt his head and his hands. "Oh, he's all right—his head is a little hot, but his hands are cool—feel!"

The finger tips were cold. "Well, I am going to bed; I've had a hard day, and there's another ahead of me tomorrow. I don't see that there's any sense running up a bill with a doctor when there's no need. All kids get sick sometimes, and the less notice you take of them the better."

The next day Lili grew hot and restless and Helmi sent for a doctor. In three days the doctor declared it to be scarlet fever, and the Herriotts decided that both children should go to the Isolation Hospital.

"Let me stay and keep them," pleaded Helmi; "I cannot let my baby go—she will fret for me—she will die among strangers. Please Mrs. Herriott, let me stay. I will work for you for a year—for five years—for nothing—if you will let me stay here and keep her. And I will nurse Roland, too." Helmi was rocking herself from side to side in her anguish.

Mrs. Herriott did not hesitate a moment. "No, Helmi, we can't do that—they'll be all right at the hospital—it's the right place."

"But my little Lili will die! I nurse my Lili."

"Well, you'll have to wean her—they'll look after that. I can't help it anyway, so don't stare at me."

Helmi sprang to her feet and shook her mistress fiercely.

"I care! I love my baby; you do not love yours. You can send yours. If he dies you will be glad. If my Lili dies I die too. Let me keep both, please, please!"

"Say, Bob, listen to this—wouldn't it jar you! Helmi, you have your nerve. Now, listen, they are both going. I guess if the Isolation Hospital is good enough for Roland Herriott it will do for Lili, so cut out all the fireworks and get them ready."

Plump and pink and white, with a

When Capt. Malcom Campbell completed his world's record automobile drive at Daytona Beach, his first request was for a cup of "good, strong tea." The courageous Captain would have enjoyed Red Rose Tea because it is a blend of choicest Assam and Ceylon teas, whose characteristics above all others are strength and flavor, packed by men trained in the London tea markets. Sold by your grocer in clean, bright aluminum packages.

16EW

baby smile, was Maudie Herriott, the petted child and wife, but hard and cruel as any toothless old crone.

Both mothers rode in the ambulance to the hospital, and, strangely enough it was Mrs. Herriott who became hysterical when the nurse took her baby from her.

The brown-eyed nurse who had received Lili read the misery in Helmi's white face, and patted her shoulder kindly. "I do not think your baby will have it very hard—she is a lovely little thing and looks quite strong. Don't worry over her, because we have splendid success with our babies here. She will have every care, I promise you. No, she will not fret much."

Helmi kissed her hand with a rapt look in her eyes, but she could not speak. Her heart would have broken when she saw Lili carried into the fever ward—away from her, with a door shut between them, if the kindly touch of the nurse's hand had not been laid on her shoulder. The hand was warm, human and strong, and its touch went with her when she went down the dark stairs to the ambulance which waited at the door.

Mrs. Herriott was weeping violently, but Helmi sat tight-lipped and pale, but tearless. The red cross on the frosted glass of the ambulance door held her eyes with gruesome fascination; to her excited imagination it seemed as if it were painted with blood.

When returning they were stopped at First Street by the closing of the black and white gates, for the afternoon train was going out—a special, carrying the soldiers. The station platform swarmed with people, and a band blared its music. Helmi hated the sound of it. How could any band play when there was so much trouble in the world and her Lili so sick? Once when she was a child at home she had drawn her hand across the plastered wall, and some of the plaster had caught below her finger nails, making her sick with a horrible sensation. The band music brought the feeling back to her again.

There were flags on the train, hanging out of the windows, fluttering like little red wounded things licking at the side of the car with red tongues. Helmi shivered as she watched them. From the window of the ambulance she could see the swarming crowds, but the train hid from her view the farewell scenes.

As the train moved slowly out, Helmi could see the faces gliding past her. Most of the soldiers were at the windows on the side next the station platform, waving to friends. Just as the last car went by, gathering up speed now, one man sat moodily looking out of the north window with eyes that saw nothing. Helmi from where she sat in the ambulance was not more than six feet from him as he passed. When his face came into view, she beat upon the glass like a mad thing, screaming: "Jack! Jack! look at me!" But though she saw him so plainly, he did not see her, and the train went on its way. Helmi's voice, like the sobbing of many others, was lost in the blare of the bands.

(To Be Continued.)

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Exterminator is an excellent medicine to destroy worms.

### China's Penalty For Speeders

Pekin, China, is making its campaign against speeders effective. After beheading some of the chauffeurs who exceeded the 15-mile speed limit, officials hung the heads in boxes at street intersections and over them placed signs in English and Chinese calling attention to the law and the consequences to those who ignored it.

A reliable antiseptic—Minard's

## Teeth and Health

Issued By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

### GREENSTAIN

You are anxious that your child should have nice white teeth, and you are endeavoring to get him to form the habit of daily care with perhaps good success.

But you notice a dark greenish stain on his teeth right next to the gum, and which persists in spite of careful brushing.

This, then, is "greenstain," and is commonly found on both the temporary and permanent teeth of children, being generally confined to the interior upper teeth, well up towards the gums.

The greenish color is due to bacteria present which find lodgment in those areas afforded by the remnant of a dead cuticle which often persists after the eruption of the tooth.

Where "greenstain" is permitted to remain for a considerable time upon these surfaces, the enamel will be found to be "etched" or roughened by dissolution due to an acid which these bacteria produce. Unfortunately, this injury to the tooth substance is permanent.

Now, you can readily understand that these roughened areas will hold food particles and epithelial matter such as are found in a mouth where brushing is neglected—and with resultant decay.

The removal of greenstain had better be left to your dentist, who, by employing some abrasant such as pumice, would be able also to smooth and polish these areas and thus check further deposits of this nature.

So, not only, as you see, should greenstain be removed for appearance sake, but also as a prophylactic measure in the prevention of decay.

Time Has Tested It.—Dr. Thomas' Electric Oil has been on the market upwards of fifty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. If it were double the price it would be a cheap liniment.

## Little Helps For This Week

"But I would not have you to be ignorant, brethren, concerning them which are asleep, that ye sorrow not, even as others which have no hope."—Thess. iv. 13.

Somewhere is comfort, somewhere faith,

Though thou in outer dark remain; One sweet, sad voice ennobles death. And still for eighteen centuries saith softly, "Ye meet again."

—James Russel Lowell.

Those who are gone you have. Those who departed loving you, love you still; and you love them always. They are not really gone,—those dear hearts and true,—they are only gone into the next room; and you will presently get up and follow them, and yonder door will be closed upon you, and you will be no more seen.

—William Makepeace Thackeray.

For Catarrh.—It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as it can outwardly. Sufferers from catarrh will find that the Oil when used according to directions will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

Of course the fittest survive, as Darwin said. We're all here, aren't we?

Minard's Liniment for insect bites.

Railway engines are said to make full use of only five per cent. of the heat generated in their boilers.

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour. Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

## Plans Difficult Climb

Mount McKinley Peak Is Objective Of Park Superintendent

An attempt to climb Mount McKinley, the highest point in North America, will be made this summer by Harry Karstens, superintendent of Mount McKinley National Park in Alaska.

The Department of the Interior has announced that the attempt would be made in the interest of science to determine whether the Alaska peak is the coldest spot on earth.

Karstens, who climbed the peak with a party of three in 1913, plans to recover a recording thermometer he left on his previous ascent. The mountain is 20,300 feet high.

## RHEUMATIC PAINS DUE TO THIN BLOOD

Relief Comes Through the Use Of Dr. Williams' Pink Pills

The most a rheumatic sufferer can hope for in rubbing something on the swollen, aching joints is a little relief, and all the while the trouble is becoming more firmly rooted. It is now known that rheumatism is rooted in the blood, and that as the trouble goes on the blood becomes still further thin and watery. To get rid of rheumatism, therefore, you must go to the root of the trouble in the blood. That is why Dr. Williams' Pink Pills have proved so beneficial when taken for this trouble. They make new, rich blood which expels the poisonous acid and the rheumatism disappears.

There are thousands of former rheumatic sufferers in Canada, now well and strong, who thank Dr. Williams' Pink Pills that they are now free from the aches and pains of this dreaded trouble. One of these Mrs. W. F. Tait, McKellar, Ont., who says:—"I am one of the willing ones to tell you of the great benefits I received from the use of Dr. Williams' Pink Pills. After lying in bed for seven weeks suffering untold agony with inflammatory rheumatism, relief finally came through the use of this medicine. I could not move in bed only as they lifted me, and I could only sleep when opiates were given me. The medical treatment I was taking seemed of no avail. Then I was advised to try Dr. Williams' Pink Pills, and soon I began to get relief. After taking six or eight boxes the rheumatism was banished and I had never felt better in my life. It is several years since this happened and I have had no return of the trouble since. I may add that I recommended the pills to two of my friends who were suffering with rheumatism and the pills were equally effective in both cases."

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia, indigestion or nervousness. Take them as a tonic if you are not in the best physical condition and cultivate a resistance that will keep you well and strong. You can get these pills through any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Counsel (severely): Please remember that you are on oath. You understand the nature of an oath, do you not?"

Girl Witness (brightly): "Profane, isn't it?"

## Reduce the Acid

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.
